The ATX 22 Type-S is the boat you've been looking for. It's the boat that catches your eye across the water. It's the boat that goes all out and unleashes some serious swells. It's the boat that gives you more value, storage and all-around good times. The 22 Type-S is truly the next level.

When you're ready to surf, wakeboard, ski, or head home, just push 'GO' and the boat will take care of the work. No more dialing instructions, confusing set ups, or moving people around. Loaded with over 3,000 lb of ballast, the proven performance of the Convex V Hull, and TAPS 3T, your day will be epic and easy.

When it comes to functional layouts, we became ingeniously inventive. Take a seat in our standard reverse facing seat, or give your transom a transformation with the walkthrough upgrade. No matter which you choose, you'll be cruising in comfort.
